- 6** Bask® Heated Backrest
- 7** Multifunctional Handshower
- 8** Extra-Wide Seat
- 9** Fast-Drain Technology

**Not pictured: LuxStone® bath walls, Shower Package*

SAFETY FEATURES

Ultra-Low Entry

A secure step into your bath, every time.

Features:

- Easy, accessible bathing
- 3-inch safe step-in
- Built-in handrail on door and sides

The step-in of the KOHLER Walk-In Bath is only 3 inches high, one of the lowest walk-in thresholds on the market today. Many competitors have a threshold more than twice as high at 7 inches, making entry more challenging.

Use the indented handrails on the walk-in bath's door and sides to help you safely step onto the textured floor.

SAFETY FEATURES

Extra-Wide Door

Our bigger and better bath door is engineered for easy and accessible use.

Features:

- Left- and right-sided options
- Indented handrail on top for added grip
- Easy-to-turn handle creates watertight seal

The door of the KOHLER Walk-In Bath was specially designed to be larger and more accessible than other walk-in baths. Depending on your plumbing and the orientation of your bathroom, your KOHLER Authorized Dealer will install either a right- or left-side opening door. The top of the door features an indented handrail for added grip while sitting or standing.

To create a watertight seal once you're comfortably seated, simply close the door and turn the handle.

SAFETY FEATURES

Handrail

Easy-grip handrail and grab bar for safer bathing.

Features:

- Grab bar inside bath for stable transitioning
- Indented handrail on rim of bath for secure movement

The outside of the Walk-In Bath is equipped with a surrounding handrail built into the rim of the bath. This way, you have a stable grip at all times during your bath. Another grab bar is installed inside the bath for added stability and safety while sitting, standing and bathing.

Control Panel

Comfort at the touch of a button.

Features:

- Designed for easy reach
- Adjusts heated backrest and jets
- Customize each feature to your preference

The ergonomic control panel inside the bath is designed for simplicity and ease. Use it to adjust the Bask[®] heated backrest, hydrotherapy whirlpool jets and BubbleMassage[™] jets to your preferences.

COMFORT FEATURES

Hydrotherapy Jets

The soothing benefits of hydrotherapy create a spa-like experience.

Features:

- Hydrotherapy whirlpool jets deliver powerful massage to the back, legs and feet
- BubbleMassage™ air jets surround your body in thousands of tiny, invigorating bubbles
- Move each jet independently for precise positioning

Hydrotherapy is a popular rehabilitation technique used by everyone from injured athletes to patients recovering from surgery to seniors with mobility issues. It is a gentle yet effective way to rid the body of tension and pain in a soothing environment.

As the bath fills, the Bask® heated backrest keeps you warm and aids your body in the release of tension and stress. While you bathe, indulge in specialty hydrotherapy whirlpool jets and BubbleMassage™ air jets that reinvigorate and create a luxurious home bathing experience.

Did You Know?

- Having too many jets can weaken the massage experience. The KOHLER Walk-In Bath features 10 perfectly engineered whirlpool jets designed for optimal therapeutic pressure.
- Individually adjustable jets can be positioned to target pain and soothe sore muscles.
- Designed with a quiet motor and pump to ensure your bath remains a quiet oasis and respite from the pressures of life.

COMFORT FEATURES

BubbleMassage™ Jets

Feel refreshed and invigorated.

Features:

- Releases tiny bubbles that support hydrotherapy jets
- Variable speed adjusts intensity

As you relax in your bath, turn on the BubbleMassage™ jets and enjoy as thousands of tiny bubbles give you a sensation of weightlessness. As invigorating as a fizzy beverage, these massaging jets will energize and soothe you.

Bask® Heated Backrest

Keep your back, shoulders and neck warm as the bath fills to help release the tension of the day.

Features:

- Uses no more energy than a standard light bulb
- Surface begins to warm immediately
- Adjustable heat to complement the warmth of the bathwater

While you wait for the bath to fill and drain, use the heated backrest to stay warm and comfortable. With three levels of heat adjusted at the touch of a button, you have complete control over your comfort during your bath.

COMFORT FEATURES

BRUSHED
NICKEL

POLISHED
CHROME

Multifunction Handshower

The ease of a shower with the comfort of a bath.

Features:

- Gentle spray setting for sensitive skin
- Easily maintain the water temperature and intensity with one-touch control
- Sleek ergonomic handle
- Retractable hose
- Available in polished chrome or brushed nickel finish

Your KOHLER Walk-In Bath features the same industry-leading faucet and fixtures that accompany every KOHLER bath product. Use the multifunctional handshower to pamper your neck and shoulders with three spray settings, including a gentle setting for sensitive skin. Easily adjust the water's temperature at the touch of a button. The one-touch controls help you maintain your preferred intensity and temperature with ease.

The ergonomic handle design is smooth and sleek with a retractable hose that makes bathing easy, especially for cleansing hard-to-reach areas. Select a polished chrome or brushed nickel finish to complete the look.

COMFORT FEATURES

Bath Seat

The extra-wide seat is up to 30 percent deeper than most other walk-in tubs.

Features:

- Extra-wide seat
- 30 percent deeper than most walk-in tubs
- Designed for ideal reclining position
- Features Bask® heated backrest
- Grooves along the sides of the seat prevent pooling

Kohler engineers designed the bath seat for the ideal reclining position and optimal water depth. It offers plenty of comfort while bathing and a safer transition from a seated to standing position. Divots on the sides of the seat prevent water from pooling while draining.

Fast-Drain Technology

Quick fill and drain times ensure a comfortable soak from start to finish.

Features:

- Operate drain with accessible lever
- Fast-Drain Technology minimizes waiting time
- Ergonomic design of bath prevents standing water

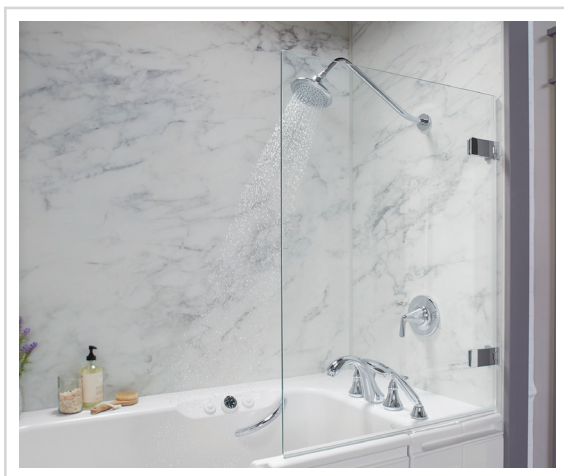

For the most comfortable bathing experience, we designed a quick-draining system that empties the bath with minimal waiting time. While you wait for your bath to drain, use the Bask® heated backrest to stay warm, then step out with ease.

COMFORT FEATURES

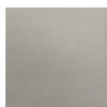

NOW AVAILABLE

Shower Package

Enjoy the safety and comfort of your Walk-In Bath plus the convenience of a shower with the addition of the gooseneck shower arm and KOHLER Bath Screen.

Options:

VIBRANT®
BRUSHED
NICKEL

POLISHED
CHROME

Features:

- Gooseneck shower arm provides the option to shower while standing
- Clear, frameless Bath Screen creates a sleek, modern look
- Ideal for a bathroom shared by people with varying levels of mobility

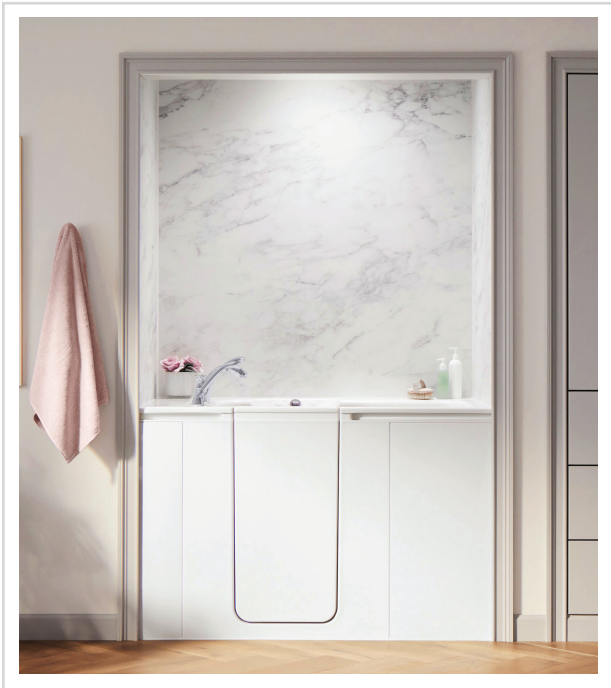

The optional Shower Package, featuring the gooseneck shower arm and KOHLER Bath Screen, adds greater functionality and versatility to your Walk-In Bath, so it can accommodate the bathing routines of everyone in your household, regardless of age or mobility.

The gooseneck shower arm gives you the option to take a shower while safely standing in your bath. Available in a wide variety of styles and finishes, the showerhead extension easily coordinates with LuxStone® bath walls, faucet finishes and bath colors.

To complete the Shower Package, a clear Bath Screen is fixed to the bath wall to keep water contained inside the tub. The clean lines and modern look of the frameless screen makes it an elegant replacement for a shower curtain.

The gooseneck shower arm and Bath Screen are designed to be easily installed with your Walk-In Bath in as little as one day.

COMPLETE THE LOOK

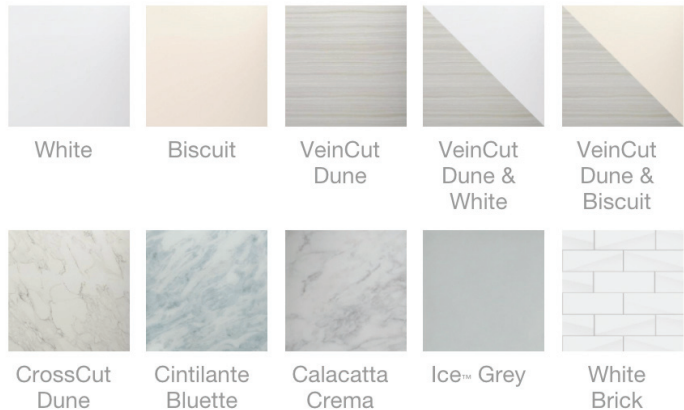

Decorative LuxStone® Bath Walls

Elegant design with minimal maintenance.

Features:

- Choose one pattern or mix and match
- Durable and easy to clean
- Made of engineered stone material

Options:

LuxStone® bath walls come in a variety of colors and patterns so you can personalize your bath exactly how you want it. The walls are made of engineered stone material that is durable and low-maintenance. Dress up your space and add style and color to your bathing experience with walls that are easily installed the same day as your Walk-In Bath. From traditional solids to contemporary patterns and textures, your bathroom can reflect your home decor and personal look.
