

# KOHLER® Walk-In Bath

(800) 707-5276

## Explore details and specifications.

### WALK-IN BATH DIMENSIONS, WATER DEPTH & THRESHOLD

Designed to fit seamlessly within the space of a standard bathtub, the KOHLER® Walk-In Bath features fast fill and drain time, hydrotherapy with massaging air jets and a low 3" step-in.

### WALK-IN BATH DIMENSIONS

**Exterior Frame:** 52" L x 28" W x 39" H  
(Up To 60" L x 32" W)  
**Interior Seat Size:** 21½" W x 17" H

All KOHLER Walk-In Baths can be customized to fit the size, width and length of your current tub. It will be leveled to fit precisely within your existing bathtub space.

### WALK-IN BATH WATER DEPTH

#### 31½" Bathing Depth for Maximum Comfort

The size of most home water heater tanks is large enough to easily fill the bath with hot water.

[See more specifications on the next page.](#)

## AIR JETS AND HYDROTHERAPY WHIRLPOOL JETS

### 10 Hydrotherapy Jets and 17 BubbleMassage™ Air Jets

We don't have the most jets of every walk-in bath out there—and that's intentional. Our engineers built the KOHLER Walk-In Bath with hydrotherapy to feature the optimal number of jets that are strategically positioned to maximize comfort while maintaining a higher level of water pressure and air jet intensity.

## ULTRA-LOW STEP-IN HEIGHT

### 3" Walk-In Threshold for Effortless Entry

Three inches is the average step-in height for our Walk-In Bath—one of the lowest on the market. Note that step-in height may vary slightly depending on your home's bathroom layout and specifications.

## FILLING AND DRAINING TIME

### Exclusive KOHLER Technology Allows Faster Bath Fill and Drain Time

KOHLER Walk-In Baths have been carefully designed to have some of the fastest filling and draining times available on the market. Please note that fill and drain times may vary depending on the water pipe capacity and flow rate of your home's plumbing system.

## CUSTOMIZE YOUR BATH

### SHOWER PACKAGE

#### Gooseneck Shower Arm and KOHLER Bath Screen for Extra Versatility

Add flexibility to your bathing experience with the Shower Package. The gooseneck shower arm provides the convenient option to stand as you shower, while the sleek Bath Screen serves as an elegant replacement for a shower curtain. These accessories will not affect the overall size of your new bath.

Shower Arm: 19 1/4" L

Bath Screen: 41 1/4" H x 32" W x 1/2" D

### BATH WALLS

#### Elegant Designs to Express Your Style

Securely step into a bath that is designed to match your personal style. Transform your bath without any major renovations using our LuxStone® bath walls chosen by Kohler design experts. Choose from a variety of patterns, textures and colors to make your new Walk-In Bath fit in your home decor.
