

# KOHLER® Walk-In Bath

 (800) 707-5276

## Explore details and specifications.

### WALK-IN BATH DIMENSIONS, WATER DEPTH & THRESHOLD

Designed to fit seamlessly within the space of a standard bathtub. The KOHLER® Walk-In Bath features fast fill and drain time, hydrotherapy with massaging air jets and a low 3" step-in.

#### WALK-IN BATH DIMENSIONS

**Exterior Frame: 52" L x 28" W x 39" H**  
**(Up To 60" L x 32" W)**  
**Interior Seat Size: 21½" W x 17" H**

All KOHLER® Walk-In Baths can be customized to fit the size, width and length of your current tub. It will be leveled to fit precisely within your existing bathtub space.

#### WALK-IN BATH WATER DEPTH

**31½" Bathing Depth for Maximum Comfort**

The size of most home water heater tanks are large enough to easily fill the bath with hot water.

## AIR JETS AND HYDROTHERAPY WHIRLPOOL JETS

### 10 Hydrotherapy Jets and 17 BubbleMassage™ Air Jets

We don't have the most jets of every walk-in bath out there—that's intentional. Our engineers built the KOHLER® Belay™ Walk-In Bath with hydrotherapy to feature the optimal number of jets that are strategically positioned to maximize comfort, while maintaining a higher level of water pressure and air jet intensity.

## ULTRA-LOW STEP-IN HEIGHT

### 3" Walk-In Threshold for Effortless Entry

Three inches is the average step-in height for our walk-in baths—the lowest of any other on the market. Note that step-in height may vary slightly depending on your home's bathroom layout and specifications.

## FILLING AND DRAINING TIME

### Exclusive Kohler Technology Allows Faster Bath Fill and Drain Time

KOHLER® Walk-In Baths have been carefully designed to have some of the fastest filling and draining times available on the market. Please note that fill and drain times may vary depending on the water pipe capacity and flow rate of your home's plumbing system.

## CUSTOMIZE YOUR BATH

Safely step into a bath that is designed to match your personal style. Transform your bath without any major renovations using our KOHLER® LuxStone™ Bath Walls, chosen by Kohler design experts. Choose from a variety of patterns, textures and colors to make your new walk-in bath fit in your home decor. You can even customize your fixture finish and bath color.

### ELEGANCE IN ACCESSIBILITY

Replace your old bathtub with an accessible walk-in bath that boasts an ultra-low 3" step-in, conveniently placed handrails, easy to reach control panel and multifunctional shower head. All Kohler bathtubs and showers meet the highest standards of quality and design.
